

Common Glen Canyon native plant species in restoration zone

Fremont's cottonwood	<i>Populus fremontii</i> ; Native tree	
Goodding's willow	<i>Salix gooddingii</i> ; Native tree	
Coyote willow	<i>Salix exigua</i> ; Native shrub	
Seep willow	<i>Baccharis salicifolia</i> ; Native perennial shrub	

<p>Willow baccharis</p>	<p><i>Baccharis salicina</i>; Native shrub</p>	
<p>Longleaf brickellbush</p>	<p><i>Brickellia longifolia</i>; Native shrub</p>	
<p>Narrow-leaf wirelettuce</p>	<p><i>Stephanomeria tenuifolia</i>; Native shrub</p>	
<p>Pullout grass</p>	<p><i>Festuca octoflora</i>; Native annual grass</p>	
<p>Arctic rush</p>	<p><i>Juncus arcticus</i>; Native perennial grass</p>	
<p>Smooth horsetail</p>	<p><i>Equisetum laevigatum</i>; Native perennial grass</p>	

<p>Giant reed</p>	<p><i>Phragmites australis</i>; Native perennial grass</p>	
<p>Cattail</p>	<p><i>Tphya domingensis</i>; Native perennial grass</p>	
<p>American speedwell</p>	<p><i>Veronia americana</i>; Native perennial forb</p>	

<p>Pale evening primrose</p>	<p><i>Oenothera pallida</i>; Native perennial forb</p>	
<p>Rough cocklebur</p>	<p><i>Xanthium strumarium</i>; Native annual forb</p>	
<p>Woolly plantain</p>	<p><i>Plantago patagonica</i>; Native perennial forb</p>	
<p>White sagebrush</p>	<p><i>Artemisia ludoviciana</i>; Native perennial forb</p>	

Less common Glen Canyon Native plant species in restoration zone

Boxelder	<i>Acer negundo</i> ; Native tree	 A photograph of a Boxelder tree (Acer negundo) with dense green foliage, growing in a desert environment with reddish-brown rock formations in the background under a clear blue sky.
Redbud	<i>Cercis occidentalis</i> ; Native tree	 A photograph of a Redbud tree (Cercis occidentalis) with vibrant purple flowers and green leaves, growing near a small stream or pool of water in a rocky, desert-like setting.
Birchleaf buckthorn	<i>Frangula betulifolia</i> ; Native shrub	 A photograph of a Birchleaf buckthorn shrub (Frangula betulifolia) with green leaves and reddish-brown stems, growing in a desert environment with reddish soil.
Rubber rabbitbrush	<i>Ericameria nauseosa</i> ; Native shrub	 A photograph of a Rubber rabbitbrush shrub (Ericameria nauseosa) with tall, thin, green stems and small leaves, growing in a desert environment with reddish soil.

<p>Stansbury's cliffrose</p>	<p><i>Purshia stansburyana</i>; Native shrub</p>	
<p>Baltic rush</p>	<p><i>Juncus balticus</i>; Native perennial grass</p>	
<p>Common threesquare</p>	<p><i>Schoenoplectus pungens</i>; Native perennial grass</p>	

<p>Indian ricegrass</p>	<p><i>Eriocoma hymenoides</i>; Native perennial grass</p>	
<p>Porcupine sedge</p>	<p><i>Carex hystericina</i>; Native perennial grass</p>	
<p>Sand dropseed</p>	<p><i>Sporobolus crytandrus</i>; Native perennial grass</p>	
<p>Spike dropseed</p>	<p><i>Sporobolus contractus</i>; Native perennial grass</p>	
<p>Torrey's rush</p>	<p><i>Juncus torreyi</i>; Native perennial grass</p>	
<p>Western bottle-bush grass</p>	<p><i>Elymus elymoides</i>; Native perennial grass</p>	

<p>Adonis stickleaf</p>	<p><i>Mentzelia longiloba</i>; Native perennial forb</p>	
<p>Broom snakeweed</p>	<p><i>Gutierrezia sarothrae</i>; Native forb</p>	
<p>Canada goldenrod</p>	<p><i>Solidago canadensis</i>; Native perennial forb</p>	
<p>Common horsetail</p>	<p><i>Equisetum arvense</i>; Native perennial forb</p>	

<p>Copperweed</p>	<p><i>Euphrosyne acerosa</i>; Native perennial forb</p>	 
<p>Cotton batting plant</p>	<p><i>Pseudognaphalium stramineum</i>; Native annual forb</p>	
<p>Cursed buttercup</p>	<p><i>Ranunculus sceleratus</i>; Native annual forb</p>	

<p>Desert dandelion</p>	<p><i>Malacothrix glabrata</i>; Native annual forb</p>	
<p>Desert prince's plume</p>	<p><i>Stanleya pinnata</i>; Native perennial forb</p>	
<p>Gooseberryleaf globemallow</p>	<p><i>Sphaeralcea grossulariifolia</i>; Native perennial forb</p>	
<p>Hoary aster</p>	<p><i>Dieteria canescens</i>; Native perennial forb</p>	
<p>James' catseye</p>	<p><i>Oreocarya suffruticosa</i>; Native perennial forb</p>	

<p>Longstem evening primrose</p>	<p><i>Oenothera longissima</i>; Native biennial forb</p>	
<p>Mountain pepperweed</p>	<p><i>Lepidium montanum</i>; Native forb</p>	 
<p>Notch-leaved phacelia</p>	<p><i>Phacelia crenulate</i>; Native annual forb</p>	

<p>Paiute suncup</p>	<p><i>Chylismia scapoidea</i>; Native annual forb</p>	
<p>Sacred datura</p>	<p><i>Datura wrightii</i>; Native annual forb</p>	
<p>Salt heliotrope</p>	<p><i>Heliotropium curassavicum</i>; Native perennial forb</p>	

<p>Sand verbena</p>	<p><i>Abronia fragrans</i>; Native perennial forb</p>	
<p>Small wirelettuce</p>	<p><i>Stephanomeria exigua</i>; Native biennial forb</p>	
<p>Steve's dustymaiden</p>	<p><i>Chaenactis stevioides</i>; Native annual forb</p>	
<p>Tansyleaf tansyaster</p>	<p><i>Machaeranthera tanacetifolia</i>; Native annual forb</p>	

<p>Threadleaf groundsel</p>	<p><i>Senecio flaccidus</i>; Native perennial forb</p>	
<p>Tidy fleabane</p>	<p><i>Erigeron concinnus</i>; Native perennial forb</p>	
<p>Western goldentop</p>	<p><i>Euthamia occidentalis</i>; Native perennial forb</p>	
<p>White prairie clover</p>	<p><i>Dalea candida</i>; Native annual forb</p>	
<p>Yellow bee plant</p>	<p><i>Cleomella lutea</i>; Native annual forb</p>	

<p>Yellow cryptantha</p>	<p><i>Oreocarya flava</i>; Native perennial forb</p>	
<p>False Virginia creeper</p>	<p><i>Parthenocissus inserta</i>; Native perennial vine</p>	
<p>Western clematis</p>	<p><i>Clematis ligustifolia</i>; Native perennial vine</p>	

Hanging garden plant species found in restoration zone

Maidenhair fern	<i>Adiantum veneris-capillaris</i> ; Native perennial fern	 A photograph showing a lush green fern growing in a cave. The fern is positioned at the base of a red rock wall, with a small pool of water visible in the foreground.
Crimson monkeyflower	<i>Erythranthe eastwoodiae</i> ; Native perennial forb	 A photograph of a plant with green leaves and bright red flowers growing in a cave. The plant is situated on a rocky surface, and a wooden stick is visible in the background.
California sawgrass	<i>Cladium californicum</i> ; Native perennial herb	 A photograph of a plant with long, narrow green leaves and a central inflorescence growing in a cave. The plant is situated on a rocky surface.
Cave primrose	<i>Primula specuicola</i> ; Native perennial forb	

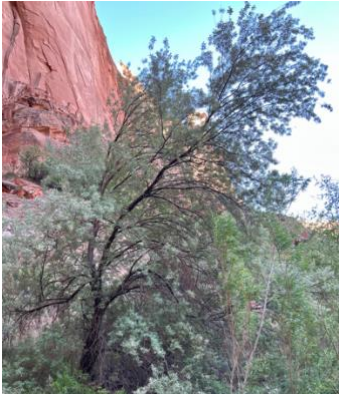

<p>Stream orchid</p>	<p><i>Epipactis gigantea</i>; Native perennial forb</p>	
<p>Mat rock-spirea</p>	<p><i>Petrophytum caespitosum</i>; Native shrub</p>	
<p>Bushy bluestem</p>	<p><i>Andropogon glomeratus</i>; Native perennial grass</p>	

Common Glen Canyon non-native plant species in restoration zone

Tamarisk	<i>Tamarix ramosissima</i> ; non-native shrub	 A photograph of a dense, green Tamarisk shrub growing in a desert canyon. The background shows reddish-brown rock walls and a clear blue sky.
Cheatgrass	<i>Bromus tectorum</i> ; non-native annual grass	
Rabbitfoot grass	<i>Polypogon monspeliensis</i> ; non-native annual grass	 A close-up photograph of a Rabbitfoot grass seed head. The seed head is green and elongated, with a soft, feathery appearance. The background is blurred, showing other grasses.
Ravenna grass	<i>Tripsidium ravennae</i> ; non-native perennial grass	 A photograph of Ravenna grass growing in a rocky, desert environment. The grass is green and appears to be a perennial species. The ground is sandy and rocky, with a blue sky visible in the background.

<p>Russian thistle</p>	<p><i>Salsola tragus</i>; non-native annual forb</p>	
<p>Spotted ladysthumb</p>	<p><i>Persicaria maculosa</i>; non-native annual forb</p>	
<p>Yellow sweet clover</p>	<p><i>Melilotus officinalis</i>; non-native annual forb</p>	

Less common Glen Canyon non-native plant species in restoration zone

<p>Russian olive</p>	<p><i>Elaeagnus angustifolia</i>; non-native tree</p>	
<p>Awned barnyard grass</p>	<p><i>Echinochloa crusgalli</i>; non native annual grass</p>	
<p>Beardless rabbitsfoot grass</p>	<p><i>Polypogon viridis</i>; non-native annual grass</p>	

<p>Compact brome</p>	<p><i>Bromus madritensis</i>; non-native annual grass</p>	
<p>Black mustard</p>	<p><i>Brassica nigra</i>; non-native annual forb</p>	
<p>Curly dock</p>	<p><i>Rumex crispus</i>; non-native perennial forb</p>	
<p>Prickly lettuce</p>	<p><i>Lactuca serriola</i>; non-native annual forb</p>	
<p>Russian knapweed</p>	<p><i>Leuzea repens</i>; non-native annual forb</p>	

Spiny sowthistle	<i>Sonchus asper</i> ; non-native annual forb	 A photograph of a spiny sowthistle plant. The plant has several upright, reddish-purple stems with small, yellow flowers and developing white seed heads. It is growing in a sandy, arid environment near a body of water, with a reddish-brown rock wall in the background.
Tall tumbled mustard	<i>Sisymbrium altissimum</i> ; non-native annual forb	 A photograph of a tall tumbled mustard plant. The plant is a low-growing, bushy green shrub with numerous small, bright yellow flowers. It is growing in a sandy, rocky, and arid environment.
